- Heavy Metals

**RIGHT SOLUTIONS
RIGHT PARTNER**

ALS Group provides a broad range of sophisticated, state of the art testing services across the globe. As a leader of analytical chemistry, ALS is a diversified international laboratory group with locations in Australia, North America, South America, Africa, Asia, and Europe. The company is one of the largest analytical laboratory groups in the world.

The ALS Environmental laboratory in Salt Lake City is a premier provider of industrial hygiene analytical services in the United States. We consistently deliver quality data to assist our clients in promoting human health. We have been accredited by the American Industrial Hygiene Association (AIHA) since 1974, and serve as the primary contract laboratory for the National Institute for Occupational Safety and Health, an honor we have proudly held for over 30 years.

ALS Salt Lake City is a NELAC accredited laboratory providing environmental analytical services to government and private clientele such as the EPA, Departments of Defense and Energy, and numerous environmental engineering firms. In supporting environmental investigation and monitoring programs, ALS Salt Lake City performs a full range of organic and inorganic analyses using SW-846 and EPA methodologies on a wide range of sample matrices including groundwater, surface water, wastewater, soil, sludge, and hazardous waste. We also provide specialty analytical services such as mycological, microscopy, and dietary supplement testing.

When making the choice for your environmental testing partner, know that ALS delivers excellent performance on a consistent basis. We set the bar high, because we know our clients expect it. We deliver on performance excellence so that we will remain the right choice with the right solutions for all your environmental testing needs.
