## Hydrography

The Environmental Division of ALS Group is one of the largest and most geographically diverse environmental testing businesses in the world.

Develop **your Hydrography career** with the Monitoring and Technical Services (MATS) group which is a sub component of the Environmental Division and provides tailored environmental measurement and data services including water, Meteorological, air, dust and noise monitoring for the water and resources sectors.

MATS offers tailored solutions providing clients with accurate data to help manage water resources and also assess compliance against various environmental conditions. You will be working with a team of professionals who provide the following services:

- Design a solution/system
- Build, install and commission the system
- Operate, service and monitor the system
- Data collection, interpretation and reporting

**Our employees** are committed to providing excellence in client service, project management and technical support. We value integrity, flexibility and innovation in our people as we strive to develop new services, and respond to changing environments.

**A career in Hydrography with the ALS Environmental Division will result in you being part of the Monitoring and Technical Services group in a client focussed global organisation.**

The professionalism of our team is central to maintaining an industry leading reputation. A position with ALS, is more than a job, but rather an opportunity to develop as part of an integrated well respected team.

### **Benefits enjoyed by our Hydrographers:**

- Options to apply for funded Hydrography qualifications.
- Access to further funded study options
- Challenging interesting work
- ALS development programs
- Annual personal and career development planning and review
- Workplace coaching and support from experienced Hydrographers and other specialists

Our Hydrographers work in a diverse range of locations around the Eastern states of Australia, such as North and Central Queensland, ACT, Western Sydney and throughout Victoria.
