ACKNOWLEDGMENT

Payment is required to confirm an enrolment. This does not apply to businesses paying on behalf of an individual that have a previously approved credit line with the Training Academy. The Training Academy may supply exam results to AINDT when requested by the applicant or AINDT. Where an applicant has a business pay for their exam, by signing below the applicant gives permission for the Training Academy to provide their exam results to the business. I confirm that I have completed the form truthfully and have read and agree to the requirements and conditions set out on this form, including the information on the back of this form.

CANCELLATION POLICY

- You must advise the ALS Training Academy in writing/email when you wish to cancel your enrolment. The following conditions apply:
- More than 10 working days' notice: The full cost of the exam will be refunded, or the enrolment can be transferred to another date.
- 6 to 10 working days' notice: 50% of the cost of the exam will be charged/refunded.
- 5 or less working days' notice: The full cost of the exam will be charged.
- An alternate person may be substituted prior to the commencement of an exam at no additional cost.
- Non-attendance at an exam will incur the full exam cost.
- ALS Training Academy reserves the right to cancel an exam if insufficient registrations are received. Should this occur, those who registered will be notified and their exam fee refunded in full.

EXAM INFORMATION

- You are required to pay exams in full and supply the Training Academy with the required information and evidence prior to the exam date.
- You need to wear the appropriate PPE to the exam.
- For RT2 you need to bring your current radiation safety license and TLD/Film Badge to the exam.
- You need to bring photographic identification to the exam e.g. driver's license.
- You need to arrive at the exam venue at least 15 minutes prior the schedule exam start time.
- If you have an issue with the exam, you need to raise this with the invigilator on the day of the exam.
- Magnetic Particle testing involves electromagnetic fields that may affect medical devices e.g. Pacemakers.
