Tracey Earle
ALS Environmental (OH01323)
4388 Glendale-Milford Road
Cincinnati, OH 45242

Ms. Earle:

The Drinking Water Laboratory Certification Program (DWLCP) has reviewed ALS Environmental's application for New Mexico drinking water laboratory certification submitted March 3, 2020.

DWLCP accepts ALS Environmental's primary New York ELAP drinking water certification for reciprocity drinking water certification in New Mexico. ALS Environmental's New Mexico drinking water certification is valid for the list of methods and analytes in the attached laboratory scope of accreditation.

The attached NM certification to perform drinking water analysis in compliance with the Federal Safe Drinking Water Act (SDWA), pursuant to 40 CFR Part 141, and the New Mexico Environment Department (NMED) Drinking Water Bureau (DWB) Regulations for regulated contaminants is valid until April 1, 2021. It is ALS Environmental's responsibility to reapply for certification renewal in a timely manner before expiration, to continue performing drinking water analyses for SDWA compliance in New Mexico. ALS Environmental must advise the DWLCP of any major change in personnel, equipment, laboratory location, or accreditation by the State of New York within 30 days of the change and continue to provide successful annual performance evaluation results to maintain certification. Additionally, ALS Environmental must also maintain the ability to successfully upload results to NMED/DWB's database of record at time of upload, for any samples analyzed for Public Drinking Water Systems regulated by NMED/DWB.

The DWLCP reserves the ability to reject drinking water certification renewal requests for any lab that does not analyze compliance drinking water samples in New Mexico.

Feel free to contact me at (505) 476-8645 if there are any questions or concerns.

Sincerely,

A handwritten signature in blue ink that reads "Bethany Anderson".

Drinking Water Laboratory Certification Program

under Primacy Agreement with the United States Environmental Protection Agency, pursuant to the Safe Drinking Water Act Regulations, 40CFR, Part 141 certifies that

ALS Laboratory Group, Env. Div.(Lab #OH01323)

4388 Glendale-Milford Rd Cincinnati, OH 45242

is in compliance with the criteria and procedures of the NM Drinking Water Laboratory Certification Program to analyze and report SDWA compliance data in New Mexico. The laboratory may perform EPA approved analyses for NM public water systems for the contaminants listed in the attached laboratory scope of accreditation.

Certification Effective: April 2, 2020 – April 1, 2021
