Hi Carl,

Thank you for your email. Unfortunately resource cuts have limited our ability to provide reciprocal certification letters. The R8 drinking water program will accept results from labs with valid state certifications, such as yours. I'll keep you updated if there is any change.

Thank you,  
Marcie

Hello Marcie,

I just received our renewed WADOE scope and certificate and am submitting this to you to request renewal of our drinking water accreditation in EPA Region 8. We have removed several organics methods from our scope due to a lack of work and the expense in performing these analyses. IF you require additional information, please do not hesitate to contact me.

Thank you in advance for your assistance.

Regards,
