

ENVIRO MAIL # 001

JANUARY 2012

## INTRODUCTION TO ALS ENVIRONMENTAL DIVISION

### INTRODUCTION

The Environmental Division of ALS is one of the largest and most geographically diverse environmental testing businesses in the world

Our environmental laboratory provides full analytical testing services specializing in metals, volatile and semi-volatile organics, inorganics, nutrients and microbiological analysis in a wide range of sample matrices covering soil, surface water, wastewater, groundwater, drinking water, seawater, sediments, waste, air, and biota. We provide accredited testing services according to the APHA, USEPA, MS and JIS Standards as part of our global commitment in meeting industry requirements in both local as well as international arenas.

### BUSINESS OVERVIEW

Analytical Testing Packages:

- Drinking / Potable Water – WHO Guidelines
- National Water Quality Standards
- ASEAN Marine Water Quality Criteria
- Wastewater Discharge For Regulatory Compliance
- Soil and Groundwater (USEPA / JIS/ Dutch)
- Solid and Hazardous Waste Characterization
- USEPA Priority Pollutant Metals
- Stack emission and ambient air standards
- Corrosion Assessment
- Offshore Produced Water Characterization
- Petroleum Fuel Oil Characterization

Our testing services support a wide range of projects including:

- Environmental monitoring, impact assessment and baseline studies
- Contaminated site assessment and remediation
- Drinking water and food monitoring wastewater processes
- Air quality monitoring (point source and ambient)
- Occupational safety and health investigations
- Mercury speciation
