

Webtrieve™ Tools

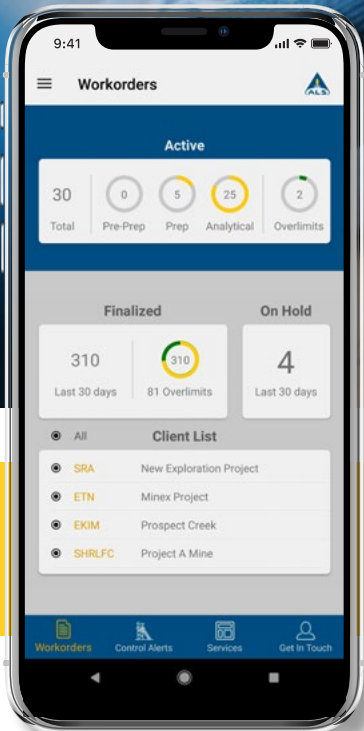

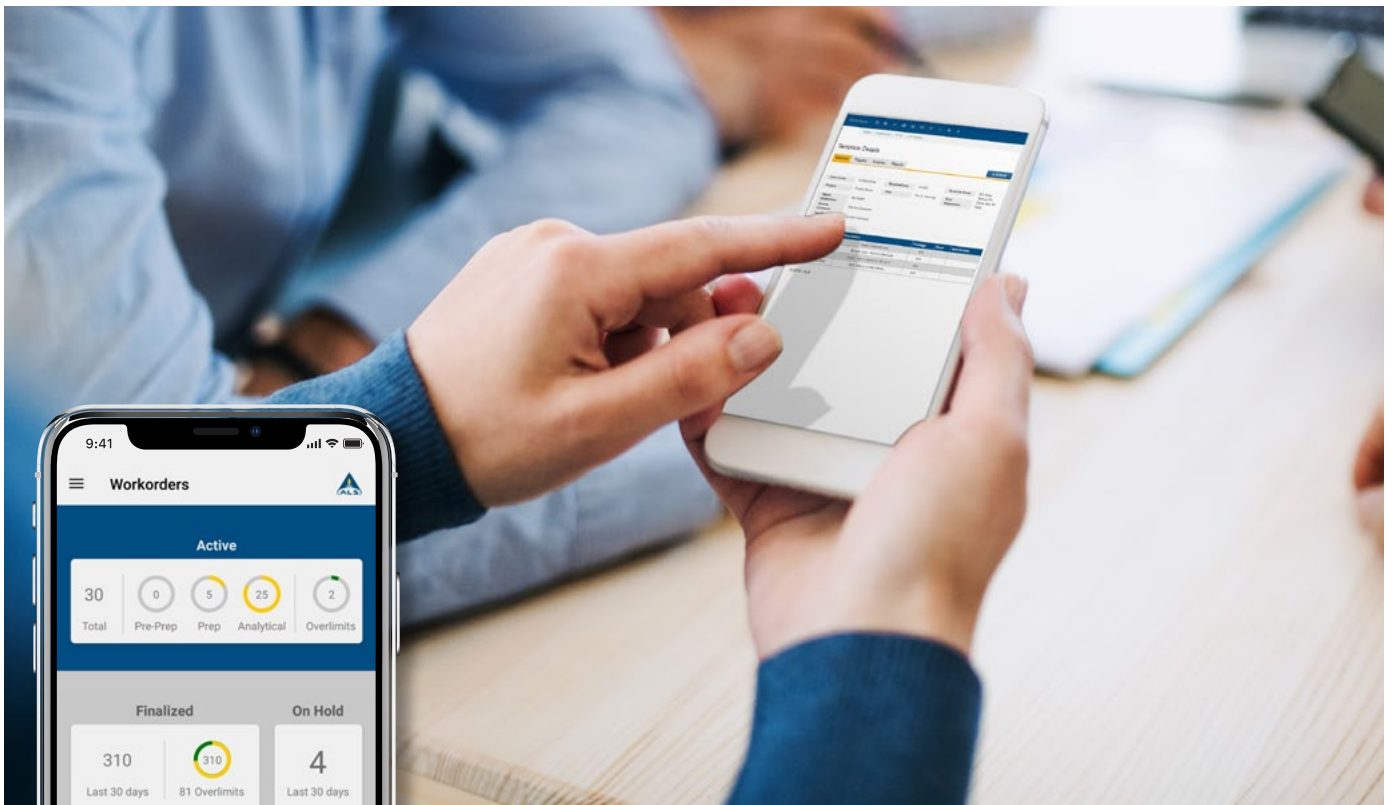

ALS has introduced new functionality to the Webtrieve™ service which allows the submission of samples electronically, entering the job directly in to our LIMS and reducing the need for paperwork and emails.

Sample Submission through e-Submit

Did you know? You can submit your samples via Webtrieve™

Direct secure access to data is available to ALS clients through the online data retrieval system, Webtrieve™, also allowing ALS clients to track and monitor service delivery of analytical tasks and QA/QC information. ALS has a strong focus on continuous improvement and enhancing the ALS Experience for our clients by actively searching for ways to automate and innovate data handling and sample submission processes. Webtrieve™ account holders can access the ALS Geochemistry App and track their samples after submission.

How does it work? >>>

Track samples submitted for analysis using ALS Geochemistry App

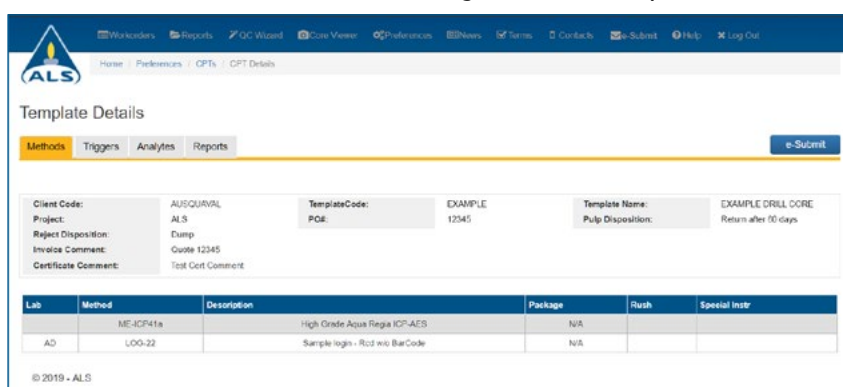

Once logged in to your Webtrieve™ account there are a few simple steps to follow:

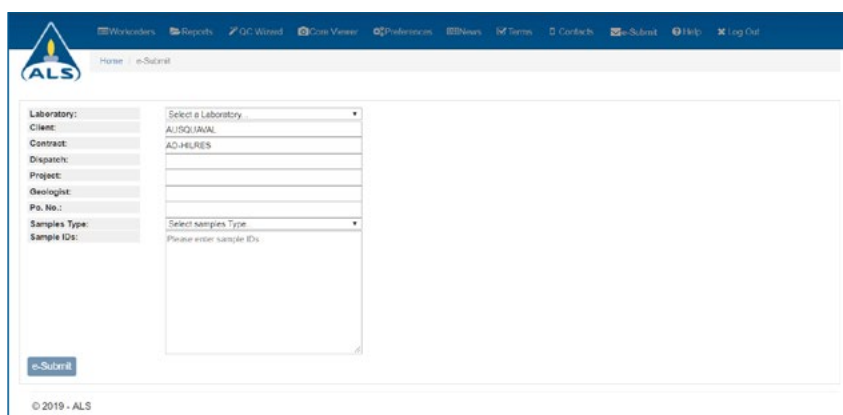

1. Click 'e-Submit' at the top of your screen.
2. Click on the template you wish to submit your samples for.

3. Click on the 'e-Submit' button on the right hand side of your screen.

4. Complete the required fields and click 'e-Submit'.

Contact your ALS client services team to learn more about setting up and using this innovative new feature.

ALS provides a wide range of specialised testing services covering all stages of your project's life cycle.

Please visit alsglobal.com for more information on our services and specialties.
